

## Pitt Island - Chatham Islands

### Flowerpot Bay Lodge - Hunting & Fishing Packages 2016-2017

The famous Saxon Merino Pitt Island sheep have roamed free on Pitt Island for over 150 years. While now constrained to the isolated rocky cliffs, their preferred habitat, the wild sheep are not farmed in any way. Treasured as a source of food and recreation, Islanders strive to preserve this now rare breed by promoting sustainable and managed hunting which not only helps to preserve the breed but bring vital income to the Island. Flowerpot Adventures has exclusive access to this resource and works closely

with land owners to provide a safe and enjoyable hunt. A range of rock fishing spots are accessible and boat charters for full or half day fishing trips can also be arranged. All hunts a free range and guided.
